Financial Results for the First Quarter Ended March 31, 2013

Net Revenue

Total net revenue for the first quarter of 2013 was \$19.2 million, a 4.9 percent increase from \$18.3 million in the corresponding period in

Net revenue from online degree programs for the first quarter of 2013 was \$15.2 million, a 2.6 percent increase over \$14.8 million in the corresponding period in 2012. The increase in net revenue from online degree programs was primarily related to organic growth in revenue students enrolled in online degree programs, and continued expansion and optimization of the Company's learning centers network Enrollment for the 2012 Fall semester online degree programs was approximately 207,000 revenue students, a 5.1 percent increase from approximately 197,000 revenue students enrolled in the Fall semester in 2011.

By the end of the first quarter of 2013, ChinaEdu's learning centers network was providing recruiting services for 23 universities with 122 operational learning centers, of which 54 were proprietary centers[6] and 68 were contracted centers[7]. This compares to 105 operational learning centers as of March 31, 2012, of which 55 were proprietary and 50 were contracted centers.

Net revenue from non-degree programs, including online tutoring programs, private primary and secondary schools and international curriculum programs in the first quarter of 2013 was \$4.0 million, a 14.3 percent increase from \$3.5 million in the first quarter of 2012. Of that, approximately \$0.3 million was attributable to increased enrollment and increased tuition at our private school in the city of Anging.

- Proprietary centers refer to self-owned learning centers operated either under the Company's own brand name or the brand name of a university pursu to a licensing arrangement with that university
- Contracted centers refer to agreement with third party learning centers pursuant to which the Company only provides assistance applying for approval from provincial level education authorities as well as securing additional university online degree programs. In return, the Company receives a percentage of the tuition earned by these third party learning centers.

Cost of Revenue

Total cost of revenue for the first quarter of 2013 was \$7.5 million, an increase of 2.3 percent, from \$7.3 million in the corresponding period

Cost of revenue for online degree programs in the first quarter of 2013 was \$5.2 million, an increase of 6.1 percent compared to \$4.9 million in the corresponding period of 2012. The increase in cost of revenue was primarily related to staff costs increasing by \$0.1 million and service station fees increasing by \$0.2 million.

Cost of revenue for non-degree programs in the first quarter of 2013 was \$2.3 million, a decrease of 5.4 percent from \$2.4 million in the first quarter of 2012. The decrease in cost of revenue for non-degree programs was primarily related to the decrease of depreciation and amortization costs associated with our international curriculum programs.

Gross Profit and Gross Margin

Gross profit for the first quarter of 2013 was \$11.7 million, compared to \$11.0 million in the corresponding period of 2012. Gross margin increased slightly to 61.0 percent, compared to 60.1 percent for the corresponding period in 2012.

Gross margin for online degree programs was 65.9 percent, a slight decrease from 67.0 percent in the first quarter of 2012. The slight decrease was primarily due to an overall increase in the percentage of total net revenue contributed by the Company's learning centers network. The learning centers network's sales and service based model results in a slightly higher cost of sales, whereas the joint venture model is more operationally driven. In general, more revenue generated from our learning centers network results in lower gross margin for

our overall online degree programs.

Gross margin for online tutoring programs increased to 64.3 percent from 54.7 percent in the first quarter of 2012, mainly due to increased net revenue as well as decreased lease and service costs.

Gross margin for private schools in the first quarter of 2013 increased to 32.7 percent, compared to 27.6 percent in the corresponding period in 2012. The increase of gross margin was primarily due to increased net revenue at our private school in Anqing.

Operating Expenses

Total operating expenses were \$7.5 million in the first quarter of 2013, an increase of 1.5 percent, from \$7.4 million in the corresponding period in 2012. As a percentage of net revenue, total operating expenses decreased to 39.1 percent, compared to 40.4 percent in the corresponding period in 2012. The increase in total operating expense was the result of the following:

- General and administrative expenses for the first quarter of 2013 were \$4.1 million, a decrease of 1.3 percent from \$4.2 million in the
 corresponding period in 2012. As a percentage of net revenue, general and administrative expenses decreased to 21.3 percent from
 22.7 percent in the same period in 2012. The decrease in general and administrative expenses was primarily the result of a one-time
 early lease termination fee in the first quarter of 2012 that was related to a leased property used by our international curriculum
 programs.
- Selling and marketing expenses were \$1.6 million in the first quarter of 2013, a decrease of 2.4 percent compared to \$1.7 million in
 the corresponding period in 2012. As a percentage of net revenue, selling and marketing expenses decreased to 8.5 percent from
 9.2 percent in the same period in 2012.
- Research and development expenses for the first quarter of 2013 were \$1.8 million, an increase of 13.0 percent compared to \$1.6 million in the corresponding period in 2012. As a percentage of net revenue, the research and development expense was 9.2 percent in the first quarter of 2013, increasing from 8.6 percent in the same period of 2012. The increase in research and development expenses relative to net revenue was primarily due to increased staff costs associated with the company's investment in technology upgrades.

Income from Operations

Income from operations in the first quarter of 2013 was \$4.2 million, an increase of 17.1 percent compared to \$3.6 million in the corresponding period of 2012. Operating margin increased to 21.9 percent in the first quarter of 2013, compared to 19.6 percent in the corresponding period of 2012.

Adjusted income from operations, a non-GAAP measure defined as income from operations excluding share-based compensation, amortization of intangible assets, land use rights and intangible assets impairment, was \$4.8 million in the first quarter of 2013, an increase of 15.1 percent compared to \$4.1 million in the corresponding period of 2012.

Adjusted operating margin, a non-GAAP measure defined as the ratio of adjusted income from operations (non-GAAP) over net revenue, for the first quarter of 2013 increased to 24.8 percent, compared to 22.6 percent for the corresponding period of 2012.

Interest expense

Interest expense for the first quarter of 2013 was \$0.3 million, and is primarily related to our loans with The Bank of East Asia, Limited.

Income Tax Expense

In the first quarter of 2013, income tax expense was \$1.0 million and the effective income tax rate was 21.2 percent.

Net Income Attributable to ChinaEdu

Net income attributable to ChinaEdu, which is net income, excluding net income attributable to non-controlling interests, was \$1.9 million in the first quarter of 2013, representing an increase of 11.6 percent from \$1.7 million in the corresponding period of 2012. The increase was primarily due to an increase in gross profit across online tutoring programs and private primary and secondary schools, as well as effective expense control.

Net income attributable to ChinaEdu per basic and diluted ADS was \$0.156 and \$0.144, respectively, for the first quarter of 2013, compared to \$0.106 and \$0.100, respectively, for the corresponding period in 2012.

Adjusted net income attributable to ChinaEdu (non-GAAP) was \$2.4 million in the first quarter of 2013, compared to \$2.2 million in the corresponding period of 2012. Adjusted net margin, a non-GAAP measure defined as the ratio of adjusted net income attributable to ChinaEdu (non-GAAP) over net revenue, was 12.5 percent in the first quarter of 2013, compared to 11.9 percent in the corresponding period of 2012.

Adjusted net income attributable to ChinaEdu per basic and diluted ADS (non-GAAP) was \$0.203 and \$0.186 respectively, for the first quarter of 2013, compared to \$0.138 and \$0.130, respectively, for the corresponding period of 2012.

Deferred Revenue

As of March 31, 2013, deferred revenue was \$10.6 million, consisting of current deferred revenue in the amount of \$9.1 million and non-current deferred revenue in the amount of \$1.5 million.

In general, Fall semester tuition for online degree programs is received during the fourth quarter but is recognized both in the fourth quarter of the current year and the first quarter of the following year.

Private school revenue is received in September, but amortized over 6 or 12 months while online tutoring program revenue can be received at program enrollment and is mostly amortized within 12 months.

Cash and Cash Equivalents and Term Deposits

As of March 31, 2013, the Company reported cash and cash equivalents and term deposits of \$53.4 million, which primarily consisted of cash and cash equivalents, and term deposits with original maturity terms of greater than three months but less than one year.

Amounts Due from Related Parties

Amounts due from related parties, which represents cash owed to the Company by collaborative alliance partners, were \$47.7 million as of March 31, 2013 compared to \$48.7 million as of December 31, 2012.

Share repurchase

On December 31, 2012, the board of directors of ChinaEdu approved a plan to repurchase up to US\$40.0 million worth of outstanding ChinaEdu ADSs. In the first quarter of 2013, the Company repurchased an aggregate of 19,724,739 ordinary shares equivalent for a total cash consideration and cancellation fee of RMB231.4 million (equivalent to US\$37.3 million). The repurchased shares were all cancelled. Thus net income attributable to ChinaEdu per diluted ADS increased accordingly.

Second Quarter 2013 Guidance

ChinaEdu management expects total net revenue in the second quarter of 2013 to range from RMB124 million to RMB130 million or \$20.0 million, representing an 8 percent to 13 percent increase from RMB115 million or \$18.1 million compared to the corresponding period in 2012.
